ISACA CISA Boot Camp

Infosec's Certified Information Systems Auditor (CISA) Boot Camp is a five-day training focused on preparing you for the ISACA CISA exam. You'll leave with the knowledge and domain expertise needed to pass the CISA exam the first time you take it.

Course description

Information security is critical in today's fast-paced world, and that's led to a growing demand for professionals who understand how to measure the risk of an organization's data and systems, and create and administer programs and policies to combat security breaches.

This CISA Boot Camp teaches you the skills necessary to develop, manage and supervise programs to defend against unauthorized admittance to information. You'll gain in-depth knowledge of auditing information systems and how it applies to real-world scenarios — and leave fully prepared to pass your CISA exam.

Who should attend

- » IT auditors
- » Information security consultants
- » Information security analysts
- » Risk managers and professionals
- » Anyone interested in learning auditing skills and getting certified

Boot camp at a glance

What you'll learn

- ✓ Information systems auditing process
- ✓ Security principles and best practices
- ✓ Evaluating systems, operations, governance and more!

Delivery methods

- ✓ Online
- ✓ In person
- ✓ Team onsite

Training duration

- ✓ Immediate access to Infosec Skills
- ✓ 5-day boot camp
- ✓ 90-day extended access to all boot camp materials

The hands-on cybersecurity training platform that moves as fast as you do

Infosec Skills boot camps are engineered to match the way today's cybersecurity professionals prefer to learn. In addition to days of live training from an experienced pro, you'll get unlimited access to 100s of additional hands-on cybersecurity courses and cyber ranges to help you advance your skills before, during and after your boot camp. Your Infosec Skills access extends 90 days past your boot camp, so you can take additional time to prepare for your exam, or get a head start on your next certification goal.

Start training immediately

Prepare for your boot camp with immediate access to the Infosec Skills on-demand training library.

Learn by doing in the cyber range

Put what you've learned into practice with 100s of browser-based labs and hands-on projects.

Get unlimited custom practice exams

Uncover knowledge gaps with unlimited practice exams attempts and skill assessments.

700+ IT and security courses

Earn CPEs and build new skills with 100s of additional training courses.

What's included

- » Five days of live, expert CISA instruction
- » Exam Pass Guarantee
- » Exam voucher
- » Unlimited practice exam attempts
- » 100% Satisfaction Guarantee
- » 12-month subscription to the ISACA Official Question, Answer & Explanation (QAE) Database
- » Free 90-day Infosec Skills subscription (access to 1,400+ additional courses and labs)
- » 90-day extended access to all boot camp video replays and materials
- » Pre-study learning path
- » Knowledge Transfer Guarantee

Prerequisites

A minimum of five years of professional information systems auditing, control or security work experience is required for certification; however, up to three years can be waived if other requirements are met. You have five years after passing the exam to gain the necessary work experience and apply for certification

CISA objectives

Infosec's CISA Boot Camp extensively prepares you for the CISA exam, which consists of 150 multiple-choice questions that cover the five information systems auditing areas. These areas have been created from a CISA job practice analysis and reflect the work performed by information systems auditors:

- » The process of auditing information systems
- » Governance of IT and management
- » Information systems acquisition, development and implementation
- » Information systems operations, maintenance and services management
- » Protection of information assets

Industry-leading exam pass rates

Infosec's CISA courseware materials are always up to date and synchronized with the latest ISACA exam objectives. Our industry-leading curriculum and expert instructors have led to the highest pass rates in the industry. More than 93% of Infosec students pass their certification exams on their first attempt.

ISACA Accredited Training Organization (ATO)

Infosec is one of just two ISACA-accredited Elite+ Partners in the world. When you enroll in an Infosec CISA Boot Camp, you can rest assured you are receiving the most effective and up-to-date certification prep available, including official ISACA training materials and instruction that has been independently assessed to meet ISACA's quality standards.

Skill up and get certified, guaranteed

Exam Pass Guarantee

If you don't pass your exam on the first attempt, get a second attempt for free. Includes the ability to re-sit the course for free for up to one year.

100% Satisfaction Guarantee

If you're not 100% satisfied with your training at the end of the first day, you may withdraw and enroll in a different online or in-person course.

Knowledge Transfer Guarantee

If an employee leaves within three months of obtaining certification, Infosec will train a different employee for free for up to one year.

What our students are saying

I really appreciate that our instructor was extremely knowledgeable and was able to provide the information in a way that it could be understood. He also provided valuable test-taking strategies that I know not only helped me with this exam, but will help in all exams I take in the future.

Michelle Jemmott

Pentagon

Excellent! Our instructor had a vast background and related the materials to real life. Much better than just teaching the materials to pass an exam ... but he did that as well. He went out of his way in class. The extra materials really benefited us when we returned to our real jobs! Great experience!

John Peck

EPA

Very impressed with Infosec. My instructor did a great job delivering the information strategically and in a way for all to understand. I would definitely take another class/certification prep course.

Sylvia Swinson

Texeltek

The instructor was able to take material that prior to the class had made no sense, and explained it in real world scenarios that were able to be understood.

Erik Heiss

United States Air Force

The course was extremely helpful and provided exactly what we needed to know in order to successfully navigate the exam. Without this I am not confident I would have passed.
