

Get live, expert instruction from anywhere.

Microsoft Azure: Configuring Windows Server Hybrid Advanced Services Boot Camp

Learn how to configure advanced Windows Server services using on-premises, hybrid and cloud technologies! This boot camp provides hands-on experience and prepares you to earn your Microsoft Azure AZ-801 certification.

Course description

You'll build your knowledge through hands-on labs, simulations and real-world application of skills. The combination of practical labs and expert instruction ensures you'll leave this boot camp with skills that directly transfer to the workplace.

As a Windows Server Hybrid Administrator, you'll integrate Windows Server environments with Azure services and manage Windows Server in on-premises networks.

Who should attend

- » Advanced cloud, security and server administration professionals
- » IT team leaders
- » Those looking to migrate from on-prim Microsoft solutions to cloud environments

Boot camp at a glance

What you'll learn

- ✓ Securing Windows Server on-premises and hybrid infrastructures
- ✓ Implementing and managing Windows Server high availability
- ✓ Implementing disaster recovery
- ✓ Migrating servers and workloads
- ✓ Monitoring and troubleshooting Windows Server environments

Delivery methods

- ✓ Online
- ✓ In person
- ✓ Team onsite

Training duration

- ✓ Immediate access to Infosec Skills
- ✓ 4-day boot camp
- ✓ 90-day extended access to all boot camp materials

The hands-on cybersecurity training platform that moves as fast as you do

Infosec Skills boot camps are engineered to match the way today's cybersecurity professionals prefer to learn. In addition to days of live training from an experienced pro, you'll get unlimited access to 100s of additional hands-on cybersecurity courses and cyber ranges to help you advance your skills before, during and after your boot camp. Your Infosec Skills access extends 90 days past your boot camp, so you can take additional time to prepare for your exam, or get a head start on your next certification goal.

Start training immediately

Prepare for your boot camp with immediate access to the Infosec Skills on-demand training library.

Learn by doing in the cyber range

Put what you've learned into practice with 100s of browser-based labs and hands-on projects.

Get unlimited custom practice exams

Uncover knowledge gaps with unlimited practice exams attempts and skill assessments.

700+ IT and security courses

Earn CPEs and build new skills with 100s of additional training courses.

What's included

- » Four days of expert, live Microsoft Azure AZ-801 instruction
- » Exam Pass Guarantee
- » Exam voucher
- » Unlimited practice exam attempts
- » 100% Satisfaction Guarantee
- » 90-day extended access to Boot Camp components, including class recordings
- » Free 90-day Infosec Skills subscription (access to 1,400+ additional courses and labs)
- » Knowledge Transfer Guarantee

Prerequisites

Prior to enrolling in Infosec's Microsoft Azure: Configuring Windows Server Hybrid Advanced Services Boot Camp, it is recommended that you have 5+ years of work experience in an IT or system administration role, an Azure 800 certification or comparable knowledge, and an advanced level of experience in working with Windows Server.

Certification details

The latest version of the Microsoft Azure AZ-801 exam includes five domain areas:

- » Securing Windows Server on-premises and hybrid infrastructures
- » Implementing and managing Windows Server high availability
- » Implementing disaster recovery
- » Migrating servers and workloads
- » Monitoring and troubleshooting Windows Server environments

What you'll learn

- » Securing Windows Server operating system, hybrid Active Directory infrastructure, Windows Server networking and Windows Server storage
- » Identifying and remediating Windows Server security issues
- » Implementing a Windows Server failover cluster, Storage Spaces Direct and disaster recovery
- » Managing failover clustering and virtual machines
- » Migrating on-premises storage and servers, workloads, and an AD DS infrastructure
- » Troubleshooting Windows Server on-premises and hybrid networking, Windows Server virtual machines in Azure and Active Directory

Learn from experts

We don't just have great instructors, our instructors have years of industry experience and are recognized as experts. Over the past 15 years, we've helped tens of thousands of students get certified and advance their careers.

Skill up and get certified, guaranteed

Exam Pass Guarantee

If you don't pass your exam on the first attempt, get a second attempt for free. Includes the ability to re-sit the course for free for up to one year.

100% Satisfaction Guarantee

If you're not 100% satisfied with your training at the end of the first day, you may withdraw and enroll in a different online or in-person course.

Knowledge Transfer Guarantee

If an employee leaves within three months of obtaining certification, Infosec will train a different employee for free for up to one year.
