PMP Boot Camp

Infosec's Project Management Professional (PMP) Boot Camp provides a quick and convenient approach to PMP certification. You'll gain the knowledge needed to pass the PMP exam and the project management education hours required for certification all in one boot camp.

Course description

The primary goal of this boot camp is to get you certified as a Project Management Professional (PMP). You'll learn the critical project management concepts, principles and techniques needed to pass the PMP exam on your first attempt.

The Infosec PMP Boot Camp is the only program on the market that allows you to take the exam on the fifth day of your training. In addition to targeted exam prep with an expert instructor, you'll receive 35 hours of PMP pre-study materials before your boot camp begins. This pre-study course gives you the project management education hours you need to take the exam immediately after your boot camp while the knowledge is fresh — greatly increasing your chance of passing the exam on your first attempt.

Who should attend

- » Project managers
- » Software developers
- » System engineers
- » Infosec professionals who have project management as a primary job function

Boot camp at a glance

What you'll learn

- ✓ Project management best practices
- ✓ Product management methodologies
- ✓ Initiating, planning, executing, monitoring and closing projects

Delivery methods

- ✓ Online
- ✓ In person
- ✓ Testing onsite

Training duration

- ✓ Immediate access to Infosec Skills
- ✓ 4-day boot camp, plus a day to take the exam
- ✓ 90-day extended access to all boot camp materials

The hands-on cybersecurity training platform that moves as fast as you do

Infosec Skills boot camps are engineered to match the way today's cybersecurity professionals prefer to learn. In addition to days of live training from an experienced pro, you'll get unlimited access to 100s of additional hands-on cybersecurity courses and cyber ranges to help you advance your skills before, during and after your boot camp. Your Infosec Skills access extends 90 days past your boot camp, so you can take additional time to prepare for your exam, or get a head start on your next certification goal.

Start training immediately

Prepare for your boot camp with immediate access to the Infosec Skills on-demand training library.

Learn by doing in the cyber range

Put what you've learned into practice with 100s of browser-based labs and hands-on projects.

Get unlimited custom practice exams

Uncover knowledge gaps with unlimited practice exams attempts and skill assessments.

700+ IT and security courses

Earn CPEs and build new skills with 100s of additional training courses.

What's included

- » Four days of live, expert PMP instruction (live online or in-person), plus a day to take the exam
- » Exam Pass Guarantee
- » Exam voucher
- » Unlimited PMP practice exam attempts
- » 100% Satisfaction Guarantee
- » Free 90-day Infosec Skills subscription (access to 1,400+ additional courses and labs)
- » 90-day extended access to all boot camp video replays and materials
- » Immediate access to in-depth PMP pre-study course, which meets the 35 hours required to apply for your PMP exam
- » Knowledge Transfer Guarantee

Prerequisites

This boot camp is intended for professionals that are preparing to take the PMP exam:

- » Applicants must have 35 hours of specific project management education (included with this boot camp)
- » With a Bachelor's Degree (or the global equivalent), applicants must have three years' professional project management experience, during which 4,500 hours are spent leading and directing project tasks, up to eight years from the time of application
- » Without a Bachelor's Degree (or the global equivalent), applicants must have five years' professional project management experience, during which at least 7,500 hours are spent leading and directing project tasks, up to eight years from the time of application

What you'll learn

This PMP training prepares you for the challenging PMP certification exam, which measures the application of knowledge, skills, tools and techniques used in project management. You'll learn about:

- » **People Management** — Learn about the vital elements of managing project teams and stakeholders including: conflict resolution, leadership strategy, building and training teams, negotiating agreements, and many more topics.
- » **Process Management** — Gain an understanding of the key project process elements including: communications, risk management, stakeholder tracking, resource management, project planning and practices, procurement processes, and more.
- » **Business Environment Awareness** — Develop insights on how to understand a project's unique business context including: compliance factors, organizational values, external impacts, and more.

Take your PMP exam immediately

Other PMP training programs have you wait weeks after your training to take the PMP exam, yet studies show adults forget almost half of what they learn in a class within two weeks. Infosec's unique approach to PMP certification gives you the project management education hours required to apply for your PMP exam before your boot camp begins, which allows you to take the exam immediately after your training while the material is still fresh.

Industry-leading exam pass rates

Infosec's PMP courseware materials are always up to date and synchronized with the latest PMI exam objectives. Our industry-leading curriculum and expert instructors have led to the highest pass rates in the industry. More than 93% of Infosec students pass their certification exams on their first attempt.

Skill up and get certified, guaranteed

Exam Pass Guarantee

If you don't pass your exam on the first attempt, get a second attempt for free. Includes the ability to re-sit the course for free for up to one year.

100% Satisfaction Guarantee

If you're not 100% satisfied with your training at the end of the first day, you may withdraw and enroll in a different online or in-person course.

Knowledge Transfer Guarantee

If an employee leaves within three months of obtaining certification, Infosec will train a different employee for free for up to one year.

What our students are saying

My instructor was VERY knowledgeable of the material. He also had a tremendous amount of real-life experience and great stories. He was a great teacher and gave great direction concerning the life of a PMP and how to approach the test.

Michael Hatley

Verizon

The course was phenomenal. I'm entry-level in the terms of PMP, however, the course really opened up my viewpoints and allowed me to see the form and function that is needed in order to complete tasks and run projects.

Corporal Joseph Amley

OSIS Gov

The instructor was extremely knowledgeable, even knowing the PMBOK page numbers off of the top of his head! He not only explained topics and answered questions very well, but was also engaging and made the days pass quickly.

Annmarie Boyle

Booz Allen Hamilton

I seriously cannot believe how much information I was able to retain after the course. It is so more than a boot camp. With a great instructor and additional studying and effort, it really becomes a solid learning endeavor.

Lee Henry

Hagler Systems

Great job all week. The class was on point and the instructor provided great examples and personal experience while discussing the course work.

Chuck Aiello
