# INFOSEC Skills

Upskill and certify your team with hands-on cybersecurity education

Threats move fast — your team moves faster

Upskill and certify cybersecurity talent with 1,400+ role-based courses, hundreds of hands-on labs and dozens of live, instructor-led boot camps — all mapped to popular cyber roles like SOC Analyst and Cloud Security Engineer, as well as industry standards like the NICE Workforce Framework for Cybersecurity, MITRE ATT&CK® Matrix and DoD 8570/8140. Assign pre-built skill and certification learning paths, customize your own program or enroll your team in a boot camp for an Exam Pass Guarantee.

Interactive Infosec Skills cyber ranges go one step further to help your team move from theory to practice through guided, realistic labs inside operating environments they encounter on the job — with clear learning objectives and actionable lessons.

Five pillars of a successful training program

Role-guided
Maximize training relevancy and impact with training for all 52 NICE Work Roles and 12 in-demand cyber roles.

Hands-on
Accelerate skill development and increase knowledge retention with hands-on labs in cloud-hosted cyber ranges.

Accessible
Help your team train however they learn best, whether that's in a live boot camp, self-paced course or hands-on lab.

Measurable
Assess knowledge and skills to pinpoint gaps and training needs — then measure progress with team reporting.

Engaging
Train your team with bite-sized modules taught by the best industry experts, reinforced with practice exams, and certificates of completion.

Training for every cybersecurity role

All Infosec Skills training maps directly to standard cybersecurity roles to help you build a personalized, scalable team development program and close cyber skills gaps. Quickly surface and assign training from any NICE Work Role or reference Infosec Skills Roles for 12 pre-built training roadmaps.

Learn how to ATT&CK & defend without the risk

Infosec Skills hands-on labs guide learners through realistic scenarios inside the operating environments they'd encounter on the job.

From command line basics to advanced adversarial techniques, Infosec Skills labs teach your team how to:

» Run red and blue team exercises

» Write secure code by example

» Attack and defend cloud-based applications

» Pass dozens of technical certifications by gaining hands-on domain knowledge

"Infosec Skills is a very good place for building technical acumen and engineering development knowledge. It enables us to provide training to the entire team on relevant topics."

— Romy Ricafort, West Division Senior Director of Sales Engineering

Get certified — then stay certified with 100s of CPE opportunities

Infosec Skills includes training for dozens of popular certifications from CompTIA®, (ISC)²®, ISACA®, Cisco®, Microsoft®, AWS™ and more. Prepare for your next exam with help from our expert instructors, then gauge exam readiness with unlimited access to practice exams. With completion certificates available for every course, Infosec Skills has everything you need to keep existing certifications current with 100s of CPE opportunities.

Enroll in a live boot camp for guaranteed certification

IT and security certification is often more than a goal — it's a business requirement. That's why we offer dozens of certification boot camps taught by industry experts with 10+ years of experience. Live boot camps include:

» Exam voucher
» Boot camp video replays and materials
» 90-day access to the Infosec Skills on-demand training library

Here's how we guarantee certification success:

» **Exam Pass Guarantee***: Students who don't pass their exam on the first attempt get a second attempt free. Includes the ability to re-sit the course for free for up to one year.

» **100% Satisfaction Guarantee**: Students who are not 100% satisfied with their boot camp at the end of day one may enroll in a different online or in-person course.

» **Knowledge Transfer Guarantee:** If your employee leaves within three months of obtaining certification, we will train a different employee tuition-free for up to one year.

*Does not apply to CMMC-AB / Cyber-AB boot camps.

## Track your team's progress — inside Infosec Skills or your existing LMS

Quickly enroll your team via single sign-on (SSO) or CSV upload, then organize team members into groups to easily assign training to specific departments or roles.

We'll help you secure next year's employee development budget with at-a-glance metrics that prove training impact at the individual, group and team levels like:

» Training progress and completion rates

» Skills assessment and practice exam scores

» Boot camp attendance and completion rates

With Infosec Skills integrations, you can view learner data within existing business intelligence systems and add Infosec Skills course information to any LMS or website for a seamless, centralized learning experience.

Award-winning training you can trust

About Infosec

Infosec's mission is to put people at the center of cybersecurity. We help IT and security professionals advance their careers with skills development and certifications while empowering all employees with security awareness and phishing training to stay cyber-safe at work and home.
