

Accelerate skill mastery & save with Infosec's team training program

Get volume discounts and training flexibility with Infosec's team training program. From live certification boot camps to hands-on application in the Infosec Skills cyber ranges, we have everything you need to close skills gaps and certify your team. We'll take the guesswork out of cybersecurity skill development with 100s of on-demand learning paths, live boot camps and hands-on labs — all mapped to the NICE Workforce Framework for Cybersecurity and our 12 proprietary Infosec Skills Roles.

Live online, instructor-led boot camps

Get days of live instruction from leading cybersecurity instructors in the comfort of your home office. We guarantee your team will get certified on their first attempt.

In-person training tailored to your needs

We'll bring expert instruction to your office, or host a boot camp at a nearby, private location. You pick the time, location and curriculum that works best for your team.

On-demand, role-guided team development

Every boot camp includes a year subscription to Infosec Skills. This includes unlimited, on-demand access to 1,000s of role-guided courses aligned to the NICE Framework and our 12 Infosec Skills Roles.

Trusted federal training partner

Over 75% of our students work for government agencies or contractors. That's why we make DoD 8570/8140 compliance easy with boot camps for nearly every IA baseline certification.

Boot camp volume discounts	
Seat count	Sales discount
2-5	10%
6-10	15%
11+	20%

Save up to 20% with multiple enrollments!

Savings start when you purchase as few as two seats — in the same or totally different boot camps. **Call 708.689.0131 or email info@infosecinstitute.com for your team training quote.**

Boot camp	Position category, specialty and level	List price per enrollment
Cisco CCNA Associate	IAT Level I, IAT Level II, CSSP Analyst, CSSP Incident Responder	\$3,499
